If you're looking for something that will not only highlight your lips but take care of them too, reach for our **SATIN STYLIST LIP PENCIL**. Your lips will get a beautiful shade and the natural nourishing ingredients will improve their condition and make them well nourished and moisturised.

### ♥ Why will you love it:

for the fact that, thanks to its soft, creamy texture, it is extremely easy and pleasant to apply.

### 👉 What will delight you about it:

Organic raspberry seed oil, castor oil and Carnauba and Candelilla wax moisturise them and protect their delicate skin from harmful external factors. They restore their softness and smoothness.

### 🔍 What else is worth knowing about it:

the lipstick is not sticky, does not dry out the lips and does not emphasise their imperfections. And it smells beautifully of juicy peach.

### 👉 How to use it:

pull out the stick and colour your lips with a smooth stroke. The pencil does not require sharpening.
